

Smart home control from anywhere

UltraSync+ App 

UltraSync™ Smart Home with UltraSync+ App

Thank you for considering our UltraSync™ Smart Home solution for protecting your home. We know that you have a wide choice but trust that you will choose for one of the most smart, secure and efficient cloud based solutions currently available in the market: the UltraSync™ Smart Home from Interlogix, a world leader in security solutions.

Ideal for your family, the UltraSync™ Smart Home brings smart, cost-effective security and lifestyle management into your home and at your fingertips. Reliable and convenient, UltraSync™ lets you synchronize your home systems with your day-to-day activities and create customized scenarios so that your home responds to your unique schedule.

Smart

The UltraSync™ system and mobile app give you the flexibility and freedom to adjust your security and home systems to match your lifestyle.

It also brings family caregivers new abilities to stay intimately connected, creating the most mutually secure and comfortable environment.

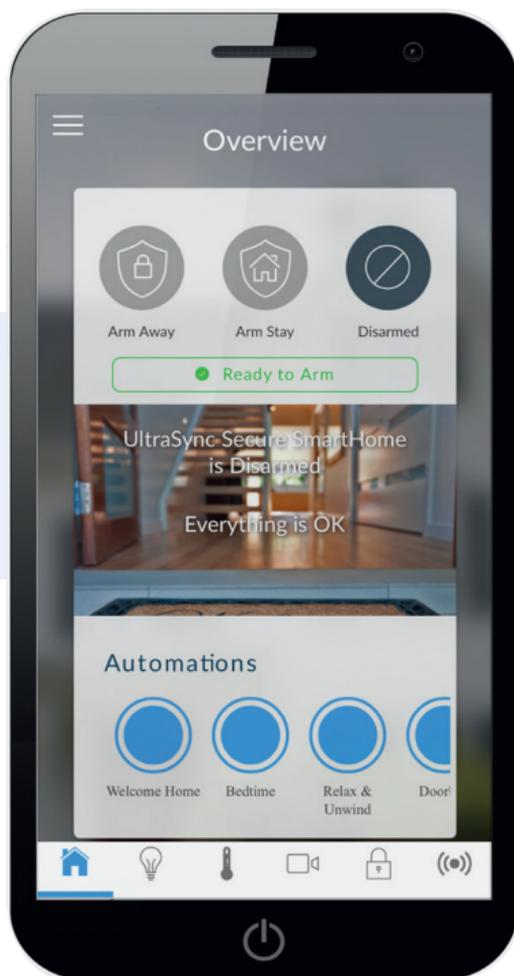

Secure

UltraSync™ provides complete home protection from the inside out.

The system easily incorporates additional security and home safety devices for extra peace of mind.

Efficient

The UltraSync™ mobile app lets you program and efficiently control your home's lighting and heating schedule. The more productive your home systems operate, the more money you save.

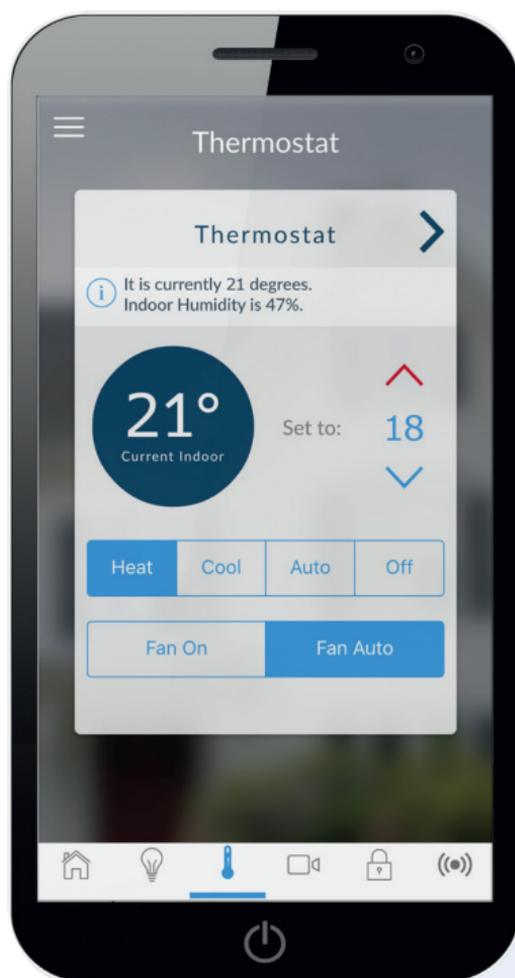

Overview

Check system status, arm/disarm and trigger automations from virtually anywhere. Set your home to automatically close the garage, lock doors, turn off lights, and modify home temperature with the push of a button, all from the comfort of your smart phone or tablet.

Lights

Come home to a safer environment by turning on lights prior to arriving.

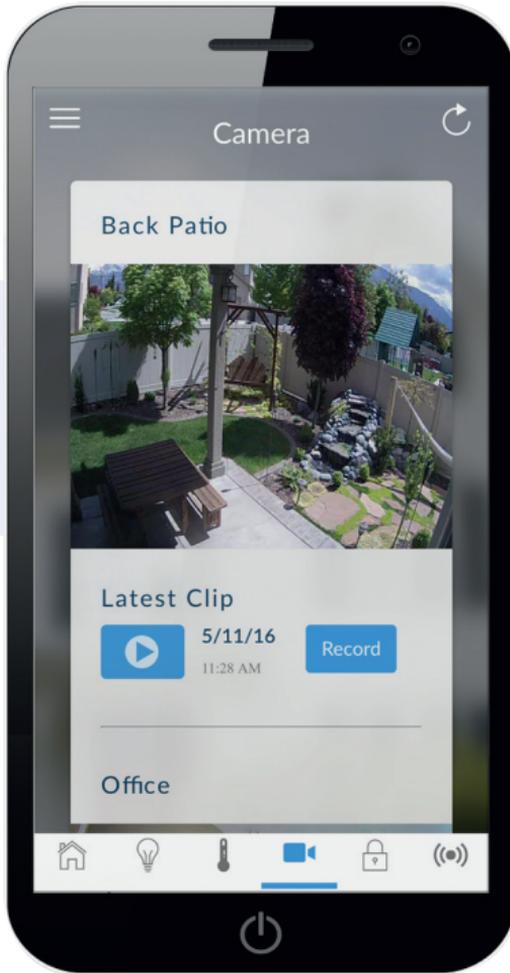

Thermostat

Adjust thermostats when leaving home, to save energy, and before arriving home, to come home to the ideal temperature.

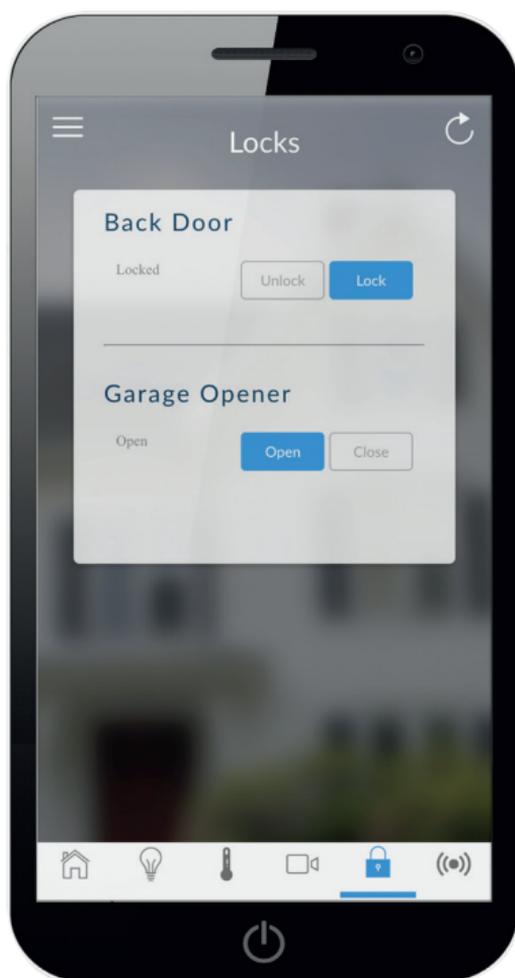

The UltraSync™ system works with smart thermostats*.

* Check with your system installer for information about compatible devices.

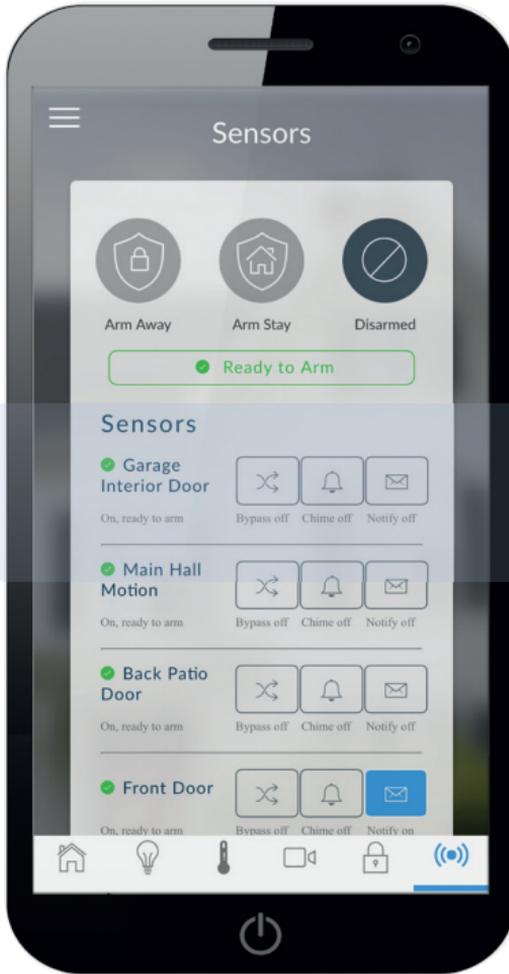

Cameras

View live video and recorded video clips from the convenience of a smartphone or tablet. Make sure the kids got home on time, check in on contractors, or see how your pets are behaving, all through live streaming video via UltraSync™ indoor/outdoor cameras.

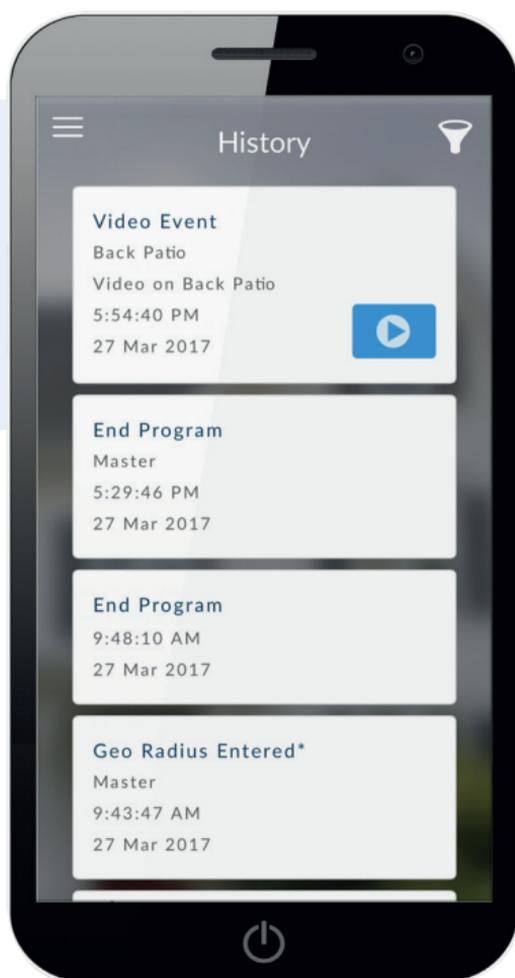

Door Locks

Close the garage door from the comfort of your bed.
Unlock a door from the office to let a visitor into your home.

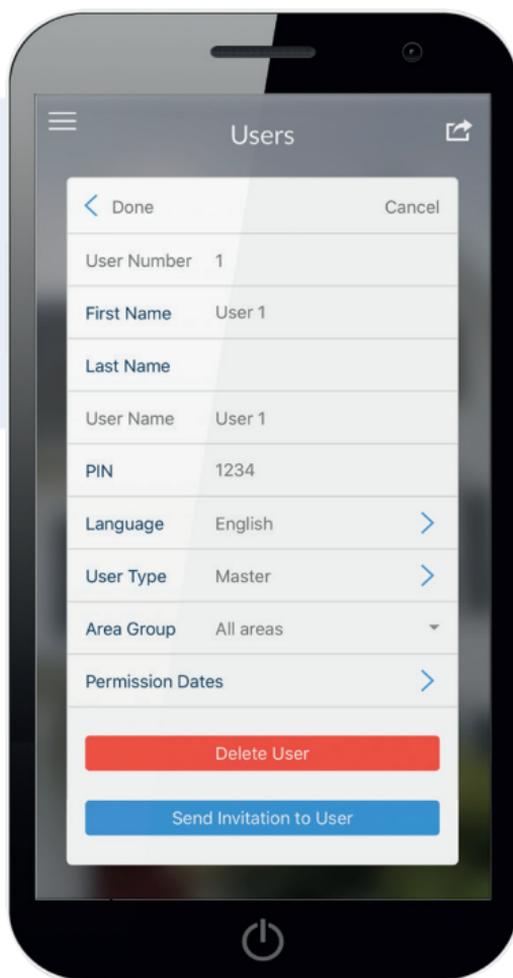

Sensors

View the status of security and life safety sensors, and be alerted when selected devices are opened or activated.

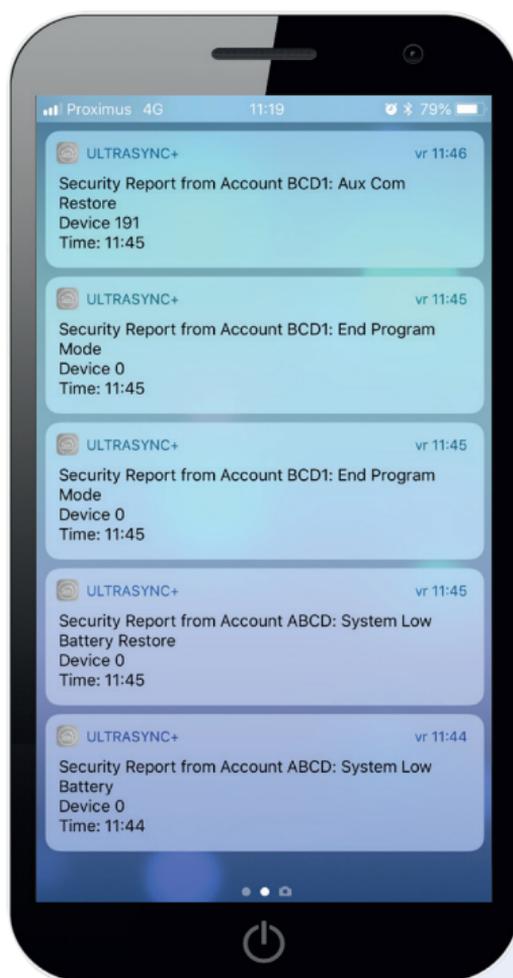

Event History

View system history to stay aware of comings and goings, troubles, alarms ...

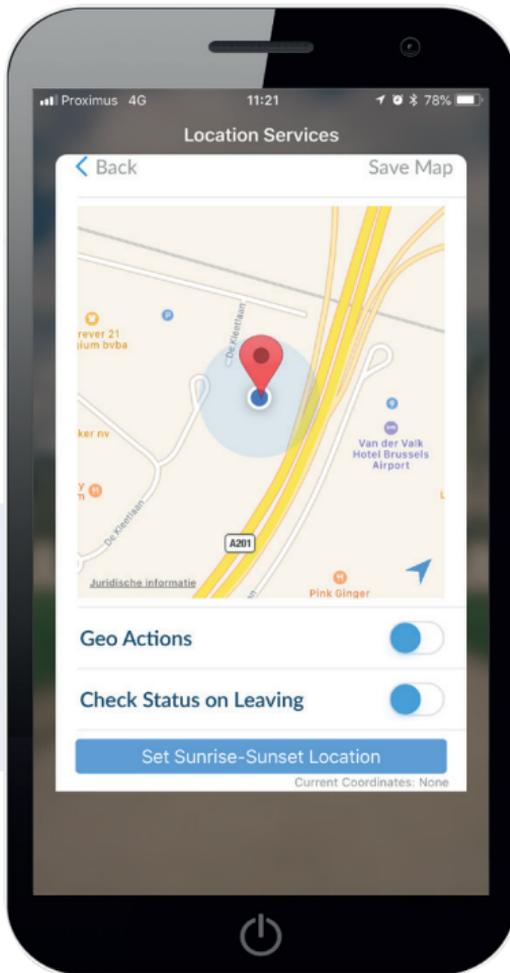

User management

Add and remove users, update profiles and create temporary codes for people who need limited access to your home. If you need to let someone into your home, you can use the app to create a unique code, and remotely set the system to allow access on selected days and times.

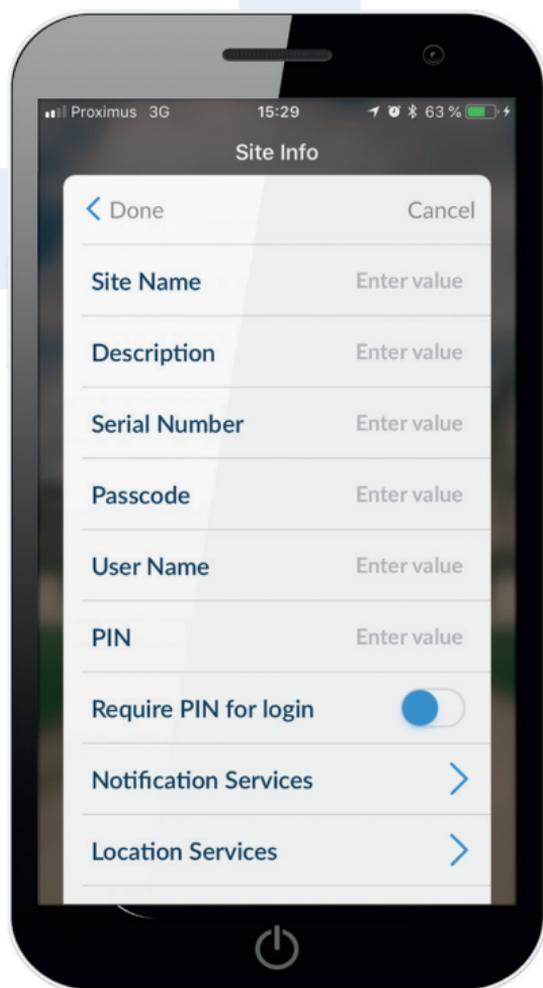

Push notification

Receive text alerts on your smart phone or smart watch.

Geolocation

Set a virtual perimeter around your home that triggers certain scenarios. Your home can be ready for you at just the right time by automatically adjusting thermostats, turning on lights and unlocking doors as you arrive, using the geolocation technology paired with your smartphone's GPS.

Multiple Sites

Add new sites /panels and manage your security and comfort at multiple sites.

Future ready

UltraSync™ lets you add on smart-enabled devices without having to upgrade your whole system. You can then choreograph all the devices to work together to respond to your lifestyle needs and energy requirements.
